VISDP: A. LORBACH, KARL MARX STR 34, 12043 BERLIN

Malte was attacked at the CSD in Münster when he rushed to help during a homophobic attack. On Friday, 02.09.22 he succumbed to his injuries.

Ella took her own life in Berlin September 2021 after a long, bitter fight against German bureaucracy, racism, and transphobia. Her grave was desecrated at least three times.

We are not dealing with isolated cases. In Berlin, and throughout Germany, more and more acts of queer-hostile violence are being reported. Acts of violence that are just a symptom of a queer-hostile society. You can't expect any help from politicians in this regard.

We say basta! We want to set a clear sign against queerphobia, and especially against transphobia. Raising the rainbow flag is not enough, we demand direct, intersectional, anti-racist, anti-ableist support for queer people! We want a society where we ALL can live freely!
